AUTOMATIC TELEPHONES — BANGALORE

With reference to your letter No L-8091 dated the 19th instant, on the subject of installation of telephones to the members of the Municipal Council at their residences or at their business premises, I have the honour to state that all the telephones that were recently received have been distributed and installed Very few numbers have been reserved for essential requirements and cannot be serviced until the instruments ordered for from the foreign countries are received

I may here mention that I have nearly 1000 applications, out of which at least 400 may be considered as essential requirements in the interests of the trade and other professions the applicants are pursuing I therefore cannot see my way of installing telephones to the residences or business premises of Municipal Councillors of the Bangalore City Municipality with such a lot of demand, which has to receive due priority over this request

Proceedings of the Council Meeting dated 23-4-1945

Subject No 4E-

Letter No L 8899/M1 10-44-108 dated 8-3-1945 from the Law Secretary that the request for telephone connections to the house of the Councillors cannot be complied with

Mr H C Suryanarayana Rao observed that the Councillors did not ask for any concession from Govt but only wanted the phones on the same conditions as were given to others The Electrical Department had said that preference would be given to essential services and business people and they had thought that the work of the Councillors was not important This was a wrong notion and the work of the Councillors was as important as any essential service So they should re-iterate their previous resolution and the President might be requested to write to the Government in this matter

Mr K N Ramaswami observed that after their resolutions, a number of people had been given telephones

Mr H C Suryanarayana Rao then moved the following "Recorded. This Council reiterates its previous resolution and requests the Government to reconsider their decision and arrange for the grant of telephones to the Municipal Councillors.

Mr K Shamaraja Iyengar seconded the above

Mr K M Naganna opposing the above said that when the Government had definitely turned down their resolution twice, there was no meaning in re-iterating again Instead of this, every Councillor who was in need of a phone might apply to the Department and if they refused, their requests, then they might collectively pass an effective resolution

Mr W H Hanumanthappa supporting the propos tion of Mr H C Suryanarayana Rao said that in the interest

proper discharge of their duties, it was better the Councillors were given phone connections

Then the proposition of Mr H C Suryanarayana Rao was put to vote and passed, 8 voting For and 3 Against ~~1~~.
